SHIVAM FASTENERS

About us

M/S Shivam Fasteners was established by promoters with over 25 years of experience in galvanization and socket making industry. Established in 2017, Shivam Fasteners vertical provides MS Fasteners to clients in manufacturing and trading industry. Our current range of fasteners includes Bolts, Nuts, Studs, U-Bolts, Sag rods, foundation bolts, Plain Washer and Spring Washer. Our manufacturing facility spread over 75,000 Square feet is equipped with latest machinery and skilled workforce. We follow strict standards like ISO, IS, BS, DIN for our process. We have developed a fully equipped lab for maintaining our quality standards and enhancing customer satisfaction. We also manufacture special fasteners as per customer drawings and requirements. We also have outsourced approved vendor for high quality galvanization.

Our Core Value

1. Integrity - We will be fair, ethical and transparent in our conduct. 2. Quality Excellence - We will be passionate about achieving the highest standards of quality. 3. Customer satisfaction - We will commit to live upto our client expectations.

Our Mission

1. To provide our customers with high quality products at low cost 2. Timely delivery 3. provide customer support round the clock 4. To come up with cost efficient solutions to improve efficiency.

we support

Manufacturing Facility

Our manufacturing facility in Ghaziabad, Uttar Pradesh is spread over 75000 Square feet. With manufacturing capacity of 600 MT/Month.

Cold Forging

We have 3 cold forging headers for bolts and 1 cold former for nut with capacity of M10 - M24. Our production Capacity for cold forging is 400 MT per month.

Rolling Thread

Roll thread provide better strength and fatigue over 20% because of better grain flow, also provides better finish and uniformity. We have 4 Roll thread machines and 2 hydraulic roll thread machine for studs, U-Bolts, Threaded rods, Sag Rods etc.

Special Fasteners

We also provide special fasteners as per client drawing. We have a range of threading, chamfering, Bending and Dia reducing machine with a production capacity of 200 MT/Month.

Heat Treatment

We have in-house Heat Treatment Facility, which enables us to manufacture Fasteners of grade 8.8, 10.9 and 12.9

Hot Forging

We have Gas fired and induction machines for manufacturing of large size Bolts and nuts. For size range from M 24 - M 56.

STANDARDS WE FOLLOW

QUALITY & TESTING

Quality is the top priority at Shivam Fasteners. We have stringent quality control methods right from procuring of raw material to finished products. Our robust checking system with well trained and qualified engineers ensures reliability and durability.

We have fully equipped lab with latest testing equipments including,

- ★ Universal Testing Machine
- ★ Rockwell Hardness Tester
- ★ Brinell Hardness tester
- ★ Impact testing Machine
- ★ Microscope
- ★ Chemical Testing Lab
